Advanced AQ metrics

Advanced AQ metrics: 16

How are we doing? Identify and uncover indications of the individual's adaptive behaviour in work. Their approach to problem solving and how much time they are spending on specific activities. It is important to see both of these in distinct measurements. The metrics are in opposition to each other, meaning an individual, team or organization can possess capabilities and skills in both. And high in one does not automatically result in low in the other.

Explore & Transform: 16

This dimension encapsulates the ability to pursue unchartered territories, seeking new possibilities as innovative opportunities. It signifies an active engagement in evaluating diverse options, testing existing frameworks, and embracing risks. It's about challenging the status quo, learning new skills, and fostering transformative change. This mindset thrives in cross-functional teams that focus on environment of constant learning and experimentation.

Currently your score is 76 (Medium)
4 point reduction compared to the previous report on Jun 26, 2023

Interpreting your score: 16

With your current profile results, you embrace change and thrive on exploration. Seeking new possibilities and discovering innovative solutions, your adaptable mindset helps drive radical transformation. Your courage to experiment makes you a valuable pioneer in any team, fueling challenges into learning opportunities.

How does it impact: 16

As a high scorer in Explore & Transform, you are a dynamic change-maker in the workplace. You are constantly seeking opportunities to develop, exploring unique ideas and enhancing new skills. Your thirst for innovation is insatiable, fostering transformative change and driving success. Your ability to lead and inspire others to follow is remarkable, driving business growth. Embrace this momentum, but ensure your innovative efforts align with the broader business objectives.

Strategies for action: 16

- Regularly document and review your innovative solutions, your adaptable mindset helps drive radical transformation.
- Facilitate brainstorming sessions to drive creative ideas and explore new opportunities.
- Allocate resources to test and implement promising ideas.
- Show your innovative practices with the rest of the organization.
- Maintain awareness of the broader business objectives to ensure your innovations align with them.

Homework and Case Study

1. Module 2: Article

Write a 500 word article

Pick an idea from the Data Science section and write a short article, showcasing your understanding

2. Module 3: Video

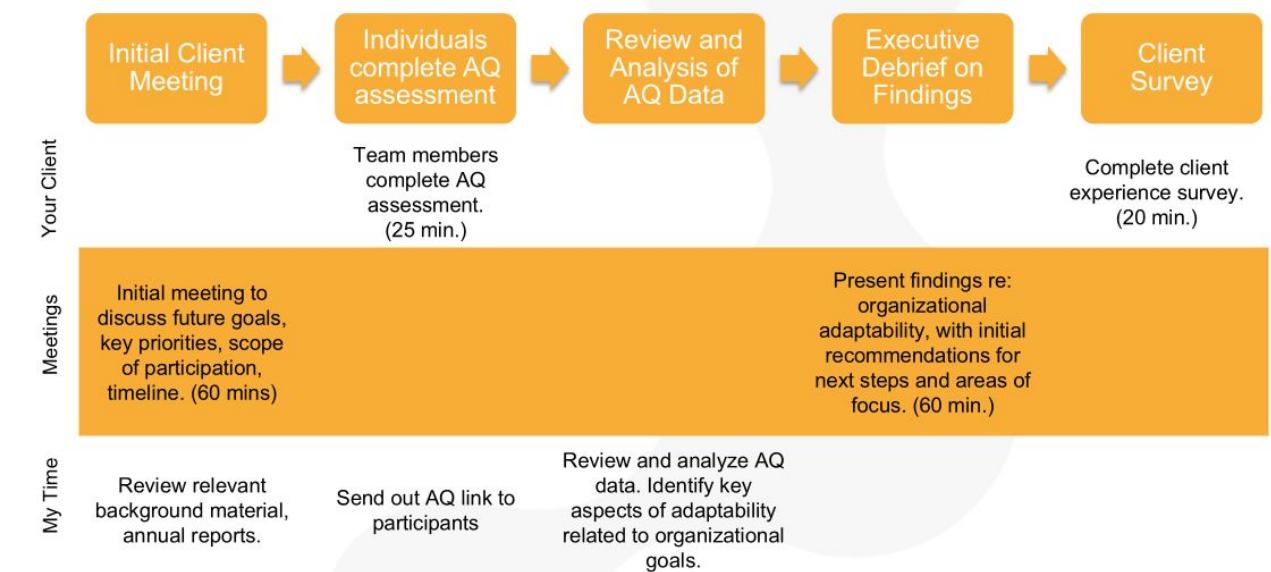

Record a 3 minute video

with a concise review of your data interpretation

3. Final: Case Study

Your Case Study is effectively a pilot project. The objective is to win (paid or pro-bono) and deliver a pilot to an intact team of 5-15 people. A pilot consists of sending assessment, analyzing the data, and facilitating an insights session with the key stakeholder and/or the team. Here's what a Case Study timeline looks like:

L2 Candidates have 90 days, post their L2 course, to complete their case study. If you need extra time, please let us know.

REQUIREMENTS

AQ Foundation Certification
Curiosity, Courage, and Commitment

**We understand that plans sometimes change. If you find you are unable to attend the professional certification for which you are registered, please notify us in writing, at least 15 days previous to the start of the course. Email is fine.

Then, you have a few options:

We are happy to apply your registration to another certification program **within a 12-month period**. If there is a price increase in the certification fee, you will be responsible to pay that difference.

Alternatively you can substitute the name of another individual to attend in your place as long as they are AQ Foundation Certified and you notify us **21 days prior to the certification date**.

If you want to receive a refund, we need to receive written notice of your cancellation **at least 45 days before the certification**.

An **investment** in **knowledge**
pays the **best** interest."

Benjamin Franklin.
